

A decorative graphic on the left side of the slide consisting of two overlapping parallelograms. The front one is blue and the back one is a light greenish-blue. They are positioned diagonally, with the blue one partially covering the green one.

Final Project Proposal

Frank Ko Sharma

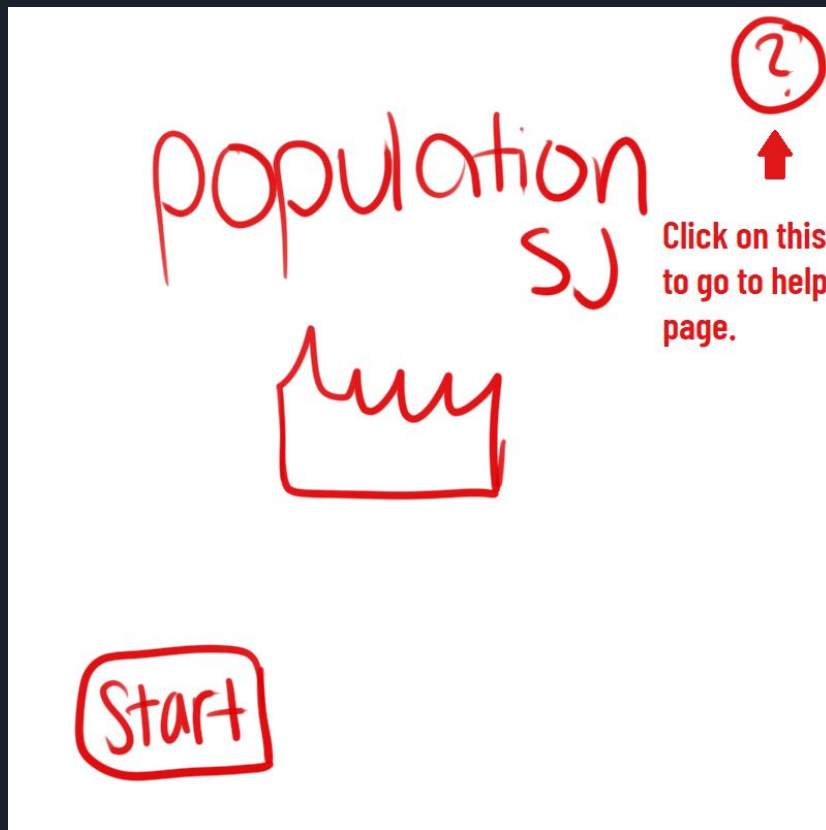

Elevator Pitch

For my final project, I am planning to make an interactive JavaScript display that'll allow you to see how the population of San Jose has changed over the years, as well as some historical landmarks that makes San Jose special, as well as the Vietnamese culture behind it. Prime examples of cultural landmarks in San Jose are the Thomas Fallon statue next to Fwy 87 and the Little Saigon shopping village that is next door to Walmart on Story Rd. The interactive will display San Jose's population over the past years, as well as another page tied to historical facts. It will have swooshing sounds as well as lo-fi music for the background.
